Why have **millions of Garaga garage doors** been installed since 1983?

Superior performance

Get a product that exceeds your expectations. Our Standard+ and Acadia 138 garage door models, inspired by Canada's severe weather, are **energy efficient** as they are first and foremost weathertight. They are **strong** and constructed with **long-lasting components**, rigorously selected to give a flawless finish, both up close and at a distance.

One of the largest selections in the industry

With **thousands of possible combinations**, you are sure to find the garage door you are looking for. Select style, color and much more by visiting **garaga.com/designcentre**. There you can create and view online the perfect door to enhance your house and be assured you're making the best decision.

A detailed quote for an informed choice

All the options you want can be **quickly** calculated then presented to you in a **clear, illustrated quotation**. Once your garage door has been chosen, your quotation is automatically transmitted to our factory to be **precisely custom-crafted**.

IN-GARAGE DELIVERY READY
with a reliable Garaga garage door!

Find out the must-haves and the steps to get started. Keep your online deliveries safe, visit garaga.com/ingaragedelivery or scan the QR code.

SIZES

Widths from 8' to 18', in 1" increments. Heights from 6'6" to 8', in 3" increments. See your garage door dealer for more details on oversized doors available.

WARRANTY

Door sections: limited lifetime
Dura+ hardware: 2 years/Value kit: 1 year
Weatherstripping: 1 year

Windows: 10 years against seal defects
1 year for thermal break

GARAGA CONSTRUCTION MAKES ALL THE DIFFERENCE

3 layers, polyurethane insulation and

- 1 Polyurethane insulation** acts as a thermal break to prevent transfer of cold or heat
- 2 InterLok™ joints** block air infiltration for superior thermal insulation
- 3 Wood end blocks** are one of the most effective thermal breaks

To save energy, all components of a garage door must be taken into consideration (joints between sections, weatherstripping, end blocks, etc.) and not just its thermal resistance R-value as that only refers to the construction of the sections.

R-16 and R-12 constructions

In garage door comparison tests, Garaga wins hands down. Watch our 45-second videos at garaga.com/lab or scan the QR code to learn more about the Garaga construction.

YOUR
GARAGA
DISTRIBUTOR

For all technical specifications for the Standard+ I Acadia 138 and the latest updates, visit www.garaga.com. Garaga has established continuous improvement programs for all its products. As a result of this ongoing quest, technical specifications for various doors are subject to change without notice. The door colors and the windows shown are as exact as printing techniques will allow. Please request an actual color sample. In addition, the clarity of both the designs and the wood grain of the doors is optimized to provide a photographic rendering. It is therefore not identical to the actual appearance.
